EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Helen Odar Wolstoncroft on March 8, 2005.

The application has been amended as follows:

In claim 9, line 2, the phrase "extending from a toe region to a lower leg region" has been substitute by the following: ---having two free ends, the first free end extends from a toe region and the second free end extends to a lower leg region---.

Lin claim 10, line 2, the phrase "extending from a toe region to a lower leg region" has been substitute by the following: ---having two free ends, the first free end extends from a toe region and the second free end extends to a lower leg region---.

The following is an examiner's statement of reasons for allowance: After careful consideration of the Applicant's remarks the Examiner has found the independent claims are allowable. There is no evidence in the prior art of a foot prosthesis comprising a first spring element having two free ends, the first free end extends from a toe region and the second end extends to a lower region; a second spring element extending from as heel region to the lower leg region, the spring elements are connected to each other at said lower leg region and a ribbon-like tension element having one end connected to a forward region of the first spring element and

connected with its other end at said heel region of the second spring element, wherein the tension element transmit only a tension force.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
